

Cast List

Adult Narrator

Played by _____

Grown-up with script in hand to hold it all together.

You have the role of storyteller in this simple production.

If you're more comfortable in a double-act, share the role with a second adult, just split the lines between you.

Your lines are often repeated by the children, so there is the security of them being your 'echo'.

In 'Milly Had To leave Us', the Adult Narrator's part is sung on the recording. Don't let this worry you! It's lovely if you can sing the lines, but if you prefer, just speak the words over the music.

Chilly Milly

Played by _____

Can be played by child or adult. All Milly needs to do is to shiver convincingly, say 'Brrr!' and be able to put on a coat, scarf, hat and gloves brought to her by the children.

Children

An ensemble of unlimited number. There are opportunities for group singing, dancing, the odd big shout and drama in the form of snowball-rolling, snowman-building and reacting to Chilly Milly.

Adult Helpers

Non-speaking roles to make sure the snowballs end up in the right places and the children know which items of clothing to bring to dress Chilly Milly.
